Sign and Submit

Read the following information carefully before dating, electronically signing and submitting the application.

2014 application is now ready to be submitted. Please note that this does not necessarily mean that your application for a nonimmigrant visa is complete; an additional submission may be needed after Department of State personnel have reviewed the application.

By clicking "Sign and Submit Application" you are electronically signing the application. You are required to electronically sign your application yourself, unless otherwise exempt by regulation, even if the application has been prepared by someone other than yourself. Your electronic signature certifies that you have read and understood the questions in this application and that your answers are true and correct to the best of your knowledge and belief. The submission of an application containing any false or misleading statements may result in the permanent refusal of a visa or the denial of entry into the United States. All declarations made in this application are sworn declarations made under penalty of perjury. (28 U.S.C. 1746).

Additionally, by clicking "Sign and Submit Application" you are certifying that you understand that you are required to submit your visa to the United States Immigration Office at the port where you apply to enter the United States, and that possession of the visa does not entitle you to enter the United States if, upon arrival, you are found to be inadmissible under U.S. immigration laws. You are certifying that you understand that any willfully false or misleading statement or willful concealment of a material fact made by you within the application may subject you to permanent exclusion from the United States and, if you are admitted to the United States, may subject you to criminal prosecution and/or deportation.

The information that you have provided in your application and other information submitted with your application may be accessible to other government agencies having statutory or other lawful authority to use such information, including for law enforcement and immigration law enforcement purposes. If fingerprints are collected as part of your application process, they may be used for the purpose of comparing them to other fingerprints in the FBI's Next Generation Identification (NGI) fingerprint system or its successor systems (including civil, criminal, and latent fingerprint repositories). If you wish to correct a record as it appears in the FBI's Civil Division Records System, you should follow procedures to change, correct, or update a record that are set forth in Title 28, CFR, Section 16.34. The photograph that you provide with your application may be used for employment verification in other U.S. law purposes.
